

DERWENT

New Derwent Inktense Blocks The creative possibilities are endless!

Derwent is delighted to announce the addition of blocks to their Inktense range. The chunky Derwent Inktense Blocks will bring a colourful and exciting dimension to drawing and painting.

Extremely versatile they are ideal for creating broad swathes of colour in a wide variety of ways; use them as pans of paint and lift colour off with a wet paintbrush, dip in water and apply directly to the paper, use dry on their side or apply directly to wet paper for instant intense colour.

Clever new accessories will also make working with Derwent Inktense Blocks more fun and less messy! The Derwent "Grate'n'Shake" allows you to mix paint and create new colours by grating Inktense Blocks into water and then shaking the container to mix the pigment. Derwent Grippers are the perfect way to keep the block secure and your hands clean when using them with water.

The new Derwent Inktense Blocks are available in 24 jewel-like colours. They are ideal for loose, expressive and colourful landscapes and still life. They can also be used on fabric to create stunning silk paintings and quilts.

Derwent Inktense Blocks are available individually and in assortments of 12 & 24.
